Entered By:

SPARCS ID of record:

Values At Risk Public Users Guide

Before you submit this form, please ensure all information is completed . . .

Date: Please fill in the date on which you are completing the form.

Provided By:: You must fill out **your first and last name**.

Short Descriptive Name: This should be a meaningful description that will let us know what we are looking at. Eg. "Trapper Cabin on east side of Pilot Lake" or "Fishing camp 15Km up the Dog River."

Geographic Location: Please provide the co-ordinates of the value AND a description. We must be able to locate the Value.

Human Life: Please choose between Occupied and Unoccupied. If there is a good chance you will be at the location between May and September choose "**Occupied**". If you only visit the location in the winter choose "**Unoccupied**". Please provide details regarding the frequency and duration the value is occupied in the details section or on a separate piece of paper. The "**Non-Habitable**" designation applies to Values who's function is NOT habitation such as towers, bridges, archaeological sites, etc. This field should be chosen for VAR's in the Infrastructure category and may also apply to Cultural and Natural Resources. These choices are less common for public use, however if you would like to report a value in this category please feel free to do so.

Display Category: Choose the main category for the VAR. If you own the value it is a **Habitable Structure Private**. If a Value has multiple purposes choose the category for the primary purpose of the VAR. The term "**habitable**" as used here means: "Suitable to live in or on; habitable cabin".

Region: Select the FMD Region in which the Value at Risk is located. If you do not know, choose the region which contains the town (Regional Centre) closest to the VAR from the list below.

Hazardous Material: Please identify if materials at this sight pose a danger to fire fighters or the environment. If you check this box please provide further details in the Additional Comments section. Gas for personal use or household size propane tanks (around 100 pounds) are not considered hazardous.

Collection Details for Owner of VAR: This section provides contact information for you, the owner of the value, so that you can be contacted in case a fire threatens your property or if we have further questions. Please provide this information.

Additional comments: Please provide details regarding how often you visit the value, what hazardous materials are present if any, the condition of the value, or any other information you would like to share with us.

Submit the form to the regional office in which your Value is located:

North Slave Region Yellowknife, NT Phone (867) 873-7184 Main Fax: (867) 873-6230	South Slave Region Fort Smith, NT Phone (867) 872-6400 Main Fax: (867) 872-4250	DehCho Region Fort Simpson, NT Phone (867) 695-7450 Main Fax: (867) 695-2381
